

MILESTONE ACTIVITY PLAN

Project Planning Phase Project Planning Template (Milestone Activity)

| | |
|--------------|------------------------------------|
| Date | 26 October 2022 |
| Team ID | PNT2PNT2022TMID30531 |
| Project Name | Project- Skill and job recommender |

Milestone Activity Plan.

| Milestone | Function (Epic) | Milestone/ Story Number | Story / Task |
|-------------|---------------------|-------------------------------|---|
| Milestone 1 | Data collection | M1 | We're collecting the sample resumes and creating two folders, one for training and another one for testing. |
| Milestone 2 | Filtering resumes | M2 | Filtering candidates resumes under eligibility criteria. |
| Milestone 3 | Store the user data | M3 | User personal information are stored in the database. An alert is sent when there is opening based on the user skillset. |
| Milestone 4 | Testing the model | M4 | Import the packages first. Then we save the data. User will interact with chatbot and get the recommendation based on their skills. |
| Milestone 5 | Application layer | M5 | Build the flask application and the HTML pages. |
| Milestone 6 | Store Response | M6 | Register for IBM Cloud and train Resume Classification Model . We can use a job search API to get job . |
| Milestone 7 | Final result | M7 | To ensure all the activities and resulting the final output. We can directly fetch the recommender job from webpage. |
